

## Infusion Lines

Pages 3 - 8

|                           |  |          |
|---------------------------|--|----------|
| <b>Daily</b>              | One-piece infusion lines . . . . .                   | <b>3</b> |
| <b>ModuFlo</b>            | Three-piece modular infusion lines . . . . .         | <b>4</b> |
| <b>Pump-specific</b>      | For Optima, Niki IV, VetPro & Baxter pumps . . . . . | <b>5</b> |
| <b>Transfusion</b>        | Standard, narrow-bore & Y-spike lines . . . . .      | <b>6</b> |
| <b>Equine Y-Spiral</b>    | Basic & Fulmac modular spiral lines . . . . .        | <b>7</b> |
| <b>Lavage &amp; Rapid</b> | Flash-flush, HiFlo & Wide bore lines . . . . .       | <b>8</b> |

## Extension Lines

Pages 9 - 15

|                          |   |           |
|--------------------------|---|-----------|
| <b>Straight</b>          | Narrow, standard & Fulmac wide bore. . . . .        | <b>9</b>  |
| <b>Delta Med</b>         | Plain and with integral 3-way tap . . . . .         | <b>9</b>  |
| <b>Spiral</b>            | Spiral extensions: narrow & standard bore . . . . . | <b>10</b> |
| <b>Y-connection</b>      | Y-connector & Y-extension sets . . . . .            | <b>10</b> |
| <b>End: non-kink</b>     | Kink-proof and Short end extensions . . . . .       | <b>11</b> |
| <b>End: low volume</b>   | T-connector, mini-bore & needle-free . . . . .      | <b>12</b> |
| <b>Pump &amp; Driver</b> | Infusion pump, syringe driver & manometry . . . . . | <b>13</b> |
| <b>Flow Regulator</b>    | Flow regulators: Paediatric & twist . . . . .       | <b>14</b> |
| <b>Transfer sets</b>     | Transfer sets: S/A & L/A . . . . .                  | <b>14</b> |
| <b>Parallel</b>          | Parallel chamber extension . . . . .                | <b>15</b> |

## Caps, Connectors & Valves

Pages 16 - 18

|                          |   |           |
|--------------------------|---|-----------|
| <b>Caps / Bungs</b>      | Injection and Closed caps . . . . .                 | <b>16</b> |
| <b>Swivel</b>            | Swivel connector for in-line connections . . . . .  | <b>16</b> |
| <b>Double Male</b>       | Twin male luer connector . . . . .                  | <b>16</b> |
| <b>Cap for N-F valve</b> | Non-activating cap for needle-free valves . . . . . | <b>16</b> |
| <b>Check Valve</b>       | One-way flow valve . . . . .                        | <b>17</b> |
| <b>Stopcocks</b>         | Wide-bore 4-way taps . . . . .                      | <b>17</b> |
| <b>N-Free Valve</b>      | Needle-free self-sealing in-line valve . . . . .    | <b>18</b> |

## Pumps & Stands

Pages 19 - 21

|                     |   |           |
|---------------------|---|-----------|
| <b>Optima VS</b>    | Volumetric infusion pump . . . . .              | <b>19</b> |
| <b>Agilia</b>       | Injectomat syringe drivers . . . . .            | <b>20</b> |
| <b>Mantis Mount</b> | Kennel door mounting system . . . . .           | <b>21</b> |
| <b>Drip mounts</b>  | Infusion stands and wall-mounted hook . . . . . | <b>21</b> |

## Intravenous Access

Pages 22 - 24

|                          |  |           |
|--------------------------|--|-----------|
| <b>Catheters</b>         | Delta Ven & Neo Delta Ven peripheral catheters . . . . . | <b>22</b> |
| <b>Stylets</b>           | Delta Ven Stylets/Obturator . . . . .                    | <b>22</b> |
| <b>Butterfly Sets</b>    | Scalp vein/Butterfly sets with extensions . . . . .      | <b>22</b> |
| <b>Jugular Catheters</b> | Information & guidance on selection . . . . .            | <b>23</b> |
| <b>Jugular Catheters</b> | Polyurethane with plain injection caps (JC) . . . . .    | <b>24</b> |
| <b>Jugular Catheters</b> | Polyurethane with needle-free caps (NF) . . . . .        | <b>24</b> |

## Drug Identity Labels

Page 25

|                       |  |           |
|-----------------------|--|-----------|
| <b>'Drugs Added'</b>  | Identify additives in fluid bags . . . . . | <b>25</b> |
| <b>Syringe Labels</b> | Syringe drug labels and holders . . . . .  | <b>25</b> |

## Sundry Items

Pages 26 - 27

|                          |  |           |
|--------------------------|--|-----------|
| <b>Catheter Dressing</b> | Delta Fix catheter site dressing . . . . .                 | <b>26</b> |
| <b>Lachrymal cannula</b> | Lachrymal irrigating cannula . . . . .                     | <b>26</b> |
| <b>Drain Sheet</b>       | Corrugated drainage sheet . . . . .                        | <b>26</b> |
| <b>C-Clamps</b>          | C-clamps (gate clamps) for drains . . . . .                | <b>26</b> |
| <b>Super Glue</b>        | Cyanoacrylate adhesive for PVC connectors . . . . .        | <b>26</b> |
| <b>Pressure Cuff</b>     | Cuff infuser for pressurising fluid bags . . . . .         | <b>26</b> |
| <b>Injection Spike</b>   | Needle-free vented injection spike . . . . .               | <b>27</b> |
| <b>Dispensing Pin</b>    | Vented mini dispensing pin . . . . .                       | <b>27</b> |
| <b>Alcohol Swabs</b>     | Sterile isopropyl alcohol swabs . . . . .                  | <b>27</b> |
| <b>Syringes</b>          | Luer-locking 3-part syringes for syringe drivers . . . . . | <b>27</b> |

## General Drainage

Pages 28 - 32

|                          |  |           |
|--------------------------|--|-----------|
| <b>Closed Collection</b> | Closed collection sets for urine drainage . . . . .  | <b>28</b> |
| <b>Latex Foleys</b>      | Latex foley catheters (siliconised) . . . . .        | <b>29</b> |
| <b>Silicone Foleys</b>   | 55 cm silicone foley catheters . . . . .             | <b>30</b> |
| <b>Heimlich Valves</b>   | Heimlich pillow & Heimlich valve connector . . . . . | <b>30</b> |
| <b>Active Valve</b>      | Active drainage extension . . . . .                  | <b>30</b> |
| <b>Grenade drains</b>    | Vacuum grenades & extensions . . . . .               | <b>31</b> |
| <b>Drain Connectors</b>  | Standard and needle-free connectors . . . . .        | <b>32</b> |

## Chest Drainage

Pages 33 - 36

|                        |                                       |           |
|------------------------|---------------------------------------|-----------|
| <b>Non-Trochar</b>     | NON-trochar; PLAIN . . . . .          | <b>33</b> |
| <b>Trochar</b>         | Trochar; PLAIN . . . . .              | <b>34</b> |
| <b>Non-Trochar KIT</b> | NEEDLE-FREE NON-trochar kit . . . . . | <b>35</b> |
| <b>Trochar KIT</b>     | NEEDLE-FREE Trochar kit . . . . .     | <b>36</b> |

## Critical Care

Pages 37 - 39

|                       |  |           |
|-----------------------|--|-----------|
| <b>Transfusions</b>   | Blood collection bags and tube clips . . . . . | <b>37</b> |
| <b>Transfer Bags</b>  | Dry transfer bags for processing . . . . .     | <b>37</b> |
| <b>Procedure Pack</b> | Emergency procedure pack . . . . .             | <b>37</b> |
| <b>O2 Connection</b>  | Oxygen connection extension . . . . .          | <b>38</b> |
| <b>O2 Connection</b>  | Cone connector/adaptor . . . . .               | <b>38</b> |
| <b>O2 Delivery</b>    | Nasal Prong Sets . . . . .                     | <b>39</b> |
| <b>O2 Delivery</b>    | Nasal oxygen catheters . . . . .               | <b>39</b> |
| <b>Feeding Tubes</b>  | Nasal feeding/oxygen tubes . . . . .           | <b>39</b> |

## New Products due soon

Page 40

|                          |  |           |
|--------------------------|--|-----------|
| <b>Silicone Drains</b>   | 100% silicone wound/abdominal drains . . . . . | <b>40</b> |
| <b>Pericardial drain</b> | Seldinger pericardial drain kit . . . . .      | <b>40</b> |

## Information Guides

Pages 41 - 42

|                          |  |             |
|--------------------------|--|-------------|
| <b>Jugular Catheters</b> | Placing jugular catheters (Seldinger) . . . . .      | <b>41</b>   |
| <b>Chest Drains</b>      | Placing trochar chest drains (Needle-free) . . . . . | <b>42</b>   |
| <b>Fax Back Form</b>     | Fax your query or order to us . . . . .              | <b>Back</b> |
